

Christine T. Fischette, Ph.D., *Senior Advisor*

Christine Fischette has over 25 years of experience in the Big Pharma/Biotech industry, having spent the majority of her career at Roche, Pfizer, and Novartis, where her last Big Pharma position was Head of Negotiation for a number of Therapeutic Business Franchise Units. She has executed multiple deals involving a variety of deal structures with large and small U.S., European, and Asian entities. She has had “hands-on” experience in general management, business development, and she was head of Pfizer’s U.S. commercial group for diabetes, having brought a diabetes drug, Glucotrol XL, to market, which eventually reached \$350 million in sales. She directed its clinical development from IND to NDA to medical marketing, and prior to that engaged in bench research where she has over 50 publications, including Science.
